WORK EXPERIENCE

Freelance Projects   **Self-employed**   Remote, Indonesia   **08/22 – Current**

- Delivered a variety of mobile app development projects, focusing on building cross-platform applications using Flutter (Dart) and native Android development with Kotlin.
- Designed and developed dynamic, user-friendly websites using Laravel (PHP) for backend development and Next.js (React) for frontend, focusing on creating scalable, responsive web applications for clients.
- Developed and deployed simple machine learning models to enhance app functionality, integrating features like sentiment analysis, recommendation systems, and predictive analytics.
- Provided full-cycle development services, from project planning, designing wireframes and user flows, to building and launching complete applications for small businesses and individual clients.
- Delivered quality, on-time solutions while ensuring strong client communication and satisfaction.

IT Support Intern   **PT. Telkom Indonesia**   Yogyakarta, Indonesia   **06/21– 09/21**

- Provided daily technical support for 100+ employees, handling both software and hardware issues.
- Assisted in migrating company data from local servers to Amazon S3 cloud storage.
- Developed IT solutions that improved internal network uptime by 15%.

Web Developer Intern   **PT Global Future Technology**   Bandung, Indonesia   **01/21 – 04/21**

- Collaborated effectively to provide guidance and support to STMIK Sumedang students throughout the Android application development process.
- Maintained and enhanced company websites using Laravel and React.js.
- Collaborated with the development team to reduce website load time by 20%.
- Implemented features such as dynamic contact forms and a custom content management system (CMS).

Kotlin Trainer   **IDN Boarding School**   Remote, Indonesia   **02/20 – 02/20**

- Delivered online training sessions for beginners on Android app development using Kotlin.
- Developed structured learning modules and received positive feedback for clear teaching methods.

Laravel Trainer   **IDN Boarding School**   Bogor, Indonesia   **12/19 – 12/19**

- Delivered Laravel web development training to over 70 participants, including students and lecturers.
- Conducted practical sessions covering MVC structure, routing, templating, and database integration.
- Supervised the development of final projects, including dynamic e-commerce web applications.

EDUCATION

Senior High School   **SMK IDN**   Bogor, Indonesia   **08/19 – 07/22**

- Informatic Engineering

University   **University Amikom Yogyakarta**   Yogyakarta, Indonesia   **2022 – 2026**

- Computer Science

CERTIFICATION

- **Dicoding Academy - Belajar Prinsip Pemrograman SOLID (2020)**
- **Dicoding Academy - Belajar Membuat Aplikasi Android untuk Pemula (2020)**
- **Dicoding Academy - Android Developer Expert (2020)**
- **SoloLearn Certifications - HTML, PHP, Java, SQL, JavaScript, C++, Python 3 (2021)**
- **Mikrotik Certified Network Associate (MTCNA) (2022)**
- **Cisco Learning Network NetAcad (2023)**
